- SafeLandUSA
- SafeGulf
- Course Components Below

SUMMARY

PEC Basic Orientation is a one-day safety orientation that is accredited by both SafeLandUSA and SafeGulf. This course meets API RP 75 and API RP T-1 requirements. PEC Basic Orientation provides general safety information that workers need to know before entering a company facility and while performing their assigned work duties. Students will learn about hazards they may encounter in their workplace and become familiar with various practices to mitigate those hazards. Students will also gain understanding of their rights under OSHA and how those rights apply to their workplace.

CERTIFICATIONS

Upon successful completion of the course, students receive their PEC ID card. The back of the card reflects PEC courses successfully completed by the student. Employers may also verify course completion by visiting www.peccard.com.

COURSE EVALUATION

Students receive written exams to verify competency in PEC Basic Orientation topics.

COURSE COMPONENTS
